

Chameleon Input devices

An optical USB notebook mouse with rotating 7-colour LED

If you want an attractive mouse for the office, home, or on the road then the Chameleon is ideal.

This light weight mouse has a rubber coating for good grip and is very easy and comfortable to use. Hot Plug and Play functionality also means the mouse is ready for instant use as soon as it is plugged in.

With its optical surface resolution of 800dpi, and 3 buttons including scroll functionality, it allows the most precise operation possible.

The constantly and randomly changing LED shines through the semi-transparent hull and lights up your surroundings.
